Bella,
Here are all the final changes to the Scorecard. I have used strikethrough / redline to highlight the changes. Let me know if you have questions!
thanks,
Laurie

Fw: IMPT: Deadline 3pm Wednesday- Regional Scorecard

Christine,
Please see my edits, based on feedback from folks in our unit, in red text below. I haven't heard (yet) from Don or Leigh or Bill. If I get any changes from them today or early tomorrow morning I will let you know.

IMPT: Deadline 3pm Wednesday- Regional Scorecard

Hi, Each of you have one or more commitments in the Regional Scorecard described below. Please let **Laurie Mann** know if these commitments are still good and achievable or provide her with any changes you want to make to them by **3pm tomorrow**. Laurie will compile them and provide to Christine by COB Wednesday. Feel free to discuss with me as well, note however that I leave for San Francisco Wednesday morning. Sorry for the short-notice, that is the schedule all the ET was given. Thanks

Lake Coeur d'Alene

By the summer of 2009, approve no fewer than five TMDLs to address dissolved oxygen, PCBs, sediment, temperature, and nutrients.

Mercury Roadmap

By ~~April~~ **June 2008** 2008, the Region will develop a strategy to implement the EPA "mercury Roadmap" within Region 10.

Mercury –

- By December 2008, determine and characterize the sources of mercury contamination in water bodies of southern Idaho which are subject to fish advisories and TMDLs.

Brownlee and Upper Snake Rock

- By December ~~2009~~ **2010**, complete ~~remaining TMDLs for the Snake River~~

~~This includes the mercury TMDL for the Brownlee portion of the Snake River;~~ **by December 2009, complete the other TMDLs for the Snake River including as well as the temperature TMDL for the Upper Snake Rock section and the dissolved oxygen TMDL for the mid-Snake Succor.**

- By December 2009, evaluate monitoring data for the mid-Snake River and evaluate effectiveness of implementation efforts and whether progress toward meeting TMDL targets is occurring.

Portneuf

- By December 2008, complete the nutrient TMDLs for the Portneuf River and revise NPDES permit limits to be consistent with TMDL waste load allocations.

Boise River

- By December 2008, complete the nutrient TMDL for the Boise River

and revise NPDES permits consistent with TMDL waste load allocations. Include water quality trading provisions in the TMDL to enable water quality trading in permits.

Klamath

- By ~~December 2008~~ **January 2009**, ODEQ will submit the final ~~to EPA~~ **to EPA**, ~~complete the~~ TMDLs for the Klamath River **to EPA**.

Columbia River

By the end of ~~September 2007~~ **December 2008**, we will develop a plan to complete **(all or portions of)** the Columbia River temperature TMDL. **(Note from Laurie & Ben: we are making a proposal to Mike in a couple weeks that will involve breaking this TMDL into a few "doable" pieces. You can insert the "all or portions of" text if you think it's appropriate).**

END
